Yankton Thrive hosted our first annual Build Your Career celebration luncheon on Tuesday, May 16th at the River Rocks Event Center. We joined regional high school students and their special guests, industry partners, career advisors and counselors, **Melissa Waldner** from **Lake Area Technical College**, **Clayton Deuter** from **Mitchell Technical College** and **Kelli Rogotzke** from **Southeast Technical College**. Together, we celebrated the many new partnerships which create rewarding careers, support business growth, community development and make a stronger, thriving future for our Yankton region. A big thank you to Crazy Daisy's Gourmet Popcorn for the delicious popcorn treats!

## PROTECTION FROM THE SUN

- SHADE
- CLOTHING
- HAT
- SUNGLASSES
- SUNSCREEN

Protection From The Sun

**River City Family Connections** has some great advice on how to protect your skin & your children's skin from too much UV light exposure as we enter these sunny months!

**Shade**  
Stay under an umbrella, tree, or some other form of shelter. Sunscreen or protective clothing can be helpful too, even in the shade.

**Clothing**  
When it is possible, try to wear long-sleeved shirts, long pants, & skirts. With the warmer weather, try wearing t-shirts or beach cover-ups to protect your skin without getting overly warm.

**Hat**  
Wear a hat that has a brim to shade your face, ears, & back of neck. Fabric that is tightly woven is more effective than something like straw, which may have holes light can shine through.

**Sunglasses**  
Wear sunglasses to protect your eyes from UV rays & to reduce the risk of cataracts. Sunglasses that block UVA & UVB rays offer the best protection for your eyes.

**Sunscreen**  
Put on sunscreen that blocks out both UVA & UVB rays. The sunscreen should also have an SPF of 15 or higher. Apply a thick layer to all exposed skin & ask for help with any hard-to-reach places.
