GOVERNOR'S OFFICE OF ECONOMIC DEVELOPMENT

Yankton Thrive was the recipient of a \$50,000 childcare planning grant through the Governor's Office of Economic Development. The grant funding will be used to explore partnerships options within the Yankton community in an effort to increase affordable childcare options. Based upon a recent study, there are over 700 children under the age of 5 that could utilize services in the Yankton area. "There are people who want to work, but the lack of childcare options that match their work hours make it impossible for them to be in the workforce," says Nancy Wenande. "Let's continue to be innovative and seek community solutions." Other Thrive member grant recipients include Sacred Heart School for a potential location in Tabor and Boys & Girls Clubs of the Northern Plains Brookings and Moody County locations.

**CULLIGANYANKTON.COM**

This week's Small Business Shout-out is highlighting **Culligan Water!**

Yankton drinking water comes from surface water sources (lakes, rivers, and streams) by way of wells along the river. So, depending on where you live, the water quality you experience in your home will often vary according to environmental factors and seasonality, like spring flooding.

Culligan of Yankton ensures to test, evaluate, and help you access the best quality water in your home on your budget. Whether that's a reverse osmosis drinking water system, a whole home water softener, or something else, they will customize a solution that's right for you!
